

## Notice about fraud

Deutsche Bank has become aware of an investment fraud that is using the Deutsche Bank name and targeting potential investors resident in Ireland.

The website [www.invest-ireland.org](http://www.invest-ireland.org) is promoting Fixed Rate Bonds and Investments that require the visitor to provide their name, email address and contact number to receive details of the fake Deutsche Bank investment opportunity

A fake Deutsche Bank Investment Prospectus is sent out using a fake domain name such as [info@dbmarketing.irish](mailto:info@dbmarketing.irish) instead of the legitimate Deutsche Bank domain @db.com.

The telephone number (+353) 1 960 9633 included in the email is also fake and is not the number for our Head Office in Dublin

Such investment scams target individuals which often result in financial losses for the affected individual.

Please be aware that such scams are not legitimate and are often linked to a criminal enterprise, such as a fraud.

Please consider making a criminal complaint to the relevant authorities if you believe that you may have suffered financial harm including a financial loss in relation to this matter.

If you receive a communication purporting to be from Deutsche Bank or relating to an investment opportunity provided by Deutsche Bank, you can validate the communication by contacting us directly using [our official contact details](#).
